Subject: Green Chemistry/Product Testing Workgroup Meeting Follow-Up
Attachments: SRRTTF Draft Product Testing List - 5-15-18.xlsx

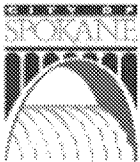

Hi Diana/All,

Good meeting today. Going off of what was discussed this morning, I put together the attached list of products/processes as well as a few more that came to mind after the meeting. I also did a brief search trying to find any previous data that had been collected on the items. Feel free to add on to this list anything I missed or incorporate it with any lists you are working on then maybe we can work on narrowing down our focus depending on the scope of our study. There were a few personal care items in the 2016 Ecology study I had forgot about so I'm glad I went back and looked through that data.

Anyways, hopefully this was somewhat helpful.

Thanks,

Jeff
